FIRST QUARTERLY RESULTS ANNOUNCEMENT FOR THE THREE MONTHS ENDED 31 MARCH 2013

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this announcement, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this announcement.

This announcement, for which the director(s) (the “Director(s)”) of LifeTech Scientific Corporation (the “Company”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on the GEM of the Stock Exchange (the “GEM Listing Rules”) for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief the information contained in this announcement is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this announcement misleading.

Our domestic sales realized approximately a 15.0% growth for the three months ended 31 March 2013 as compared to the last corresponding period. Our international market realized approximately a 32.5% growth in sales revenue as compared to the last corresponding period. The increase in revenue was mainly attributable to the rapid growth of sales volume of our primary products along with the expansion of our sales network.

FINANCIAL REVIEW

Summary of the results of the Group for the three months ended 31 March 2013 and the corresponding period in 2012 are as follows:

- Total turnover was approximately RMB50.6 million (corresponding period in 2012: approximately RMB42.5 million), representing approximately a 19.1% increase as compared to the corresponding period in 2012. The increase was primarily attributable to an increase of approximately RMB5.0 million in revenue from peripheral vascular diseases business.
- Gross profit was approximately RMB41.9 million (corresponding period in 2012: approximately RMB34.2 million), representing approximately a 22.5% increase as compared to the corresponding period in 2012. The increase was primarily attributable to an increase of approximately RMB8.1 million in revenue.
- The operating profit before tax and before change in fair value of derivatives was approximately RMB9.1 million (corresponding period in 2012: approximately RMB12.8 million), representing approximately a decrease of approximately 28.9% as compared to the corresponding period in 2012. The decrease was primarily due to the share of loss of the associate company, finance cost recognized on Convertible Notes and consultancy fee and Royalty paid to Medtronic Inc.
- Net loss attributable to owners of the Company was approximately RMB76.3 million (corresponding period in 2012: profit amounting to approximately RMB10.5 million), primarily due to the record of change in fair value of derivatives of approximately RMB82.5 million for the three months ended 31 March 2013. For illustrative purposes, with the exclusion of the change in fair value of derivatives, the Company would have recorded profit attributable to owners of the Company of approximately RMB6.2 million for the three months ended 31 March 2013, representing a decrease of approximately 41.0% as compared with the corresponding period in 2012.

On 30 January 2013, completion of the subscription of the Convertible Notes at the principal amount of HK\$152 million by Medtronic KL Holdings LLC, a wholly-owned affiliate of Medtronic, Inc. took place, and the notes are convertible into 40,000,000 new Shares at the conversion price of HK\$3.80 per conversion share. For further details, please refer to the announcement of the Company dated 30 January 2013. As at 31 March 2013, the change in fair value of conversion option was approximately RMB82.5 million. The change in fair value of conversion option is a non-operating and non-cash-flow item. Accordingly, the Board considers that the Group's operating financial positions are healthy and the Board remains positive on the prospects of the Group.

BUSINESS OUTLOOK

The Group will continue to rely on its two core businesses, namely congenital heart diseases business and peripheral vascular diseases business as growth driver in 2013. The Group will also actively expand its product offering and strengthen its established market position.
